Basic, Intermediate & Advanced Options

The 90-Day Roadmap at a Glance

PHASE 1

Days 1-15

Preparation

- ICP Development
- Offer Creation
- Asset Development
- (Landing Pages, Creatives, VSLs)

PHASE 2

Days 16-90

Execution

- Organic Channels Go Live
- Paid Campaigns Launch
- Content Marketing Begins
- LinkedIn Outreach Active

ONGOING

Days 16-90

Lead Nurturing

- CRM Automation
- Appointment Setting
- SQL Conversion
- Performance Optimization

Phase 1

Ideal Customer Profile (ICP)

What is an ICP?

Your Ideal Customer Profile tells us exactly WHO we are targeting. We narrow down from a broad market to a specific segment so every ad, every landing page, every email speaks directly to THAT person.

Why Narrow Down?

- Every message hits harder when it speaks to ONE person
- Lower ad costs because targeting is precise
- Higher conversion rates on landing pages
- Your offer becomes a no-brainer for the right buyer

YOUR ICP

Industry: [_____]

Category: [_____]

Location: [_____]

Target City: [_____]

Company Size: [_____]

Decision Maker: [_____]

Pain Point: [_____]

Phase 1

ICP: Why It Changes Everything

REAL LIFE EXAMPLE

Imagine you love carrot juice. A shop puts up a board:

"If you live in [Your Area] and love carrot juice, get 50% off today. Everyone else pays full price."

That board speaks directly to YOU. You walk in. That is ICP-based marketing.

Beachhead Strategy: We do not target the entire ocean. We capture one beach first, build trust, portfolio and referrals, then expand.

Phase 1

Offer Creation

THE OFFER FORMULA

"We help [ICP] to achieve [Outcome] in [Timeframe]"

Example Offers

- *"We help importers streamline shipping from China to Gulf countries, saving money and avoiding delays."*
- *"We help accounting firms generate 10+ qualified leads per month in the first 90 days."*
- *"We help [Your Business] achieve [Your Goal] through our tested 90-day system."*

The offer is built around your ICP's pain points so they feel it was made just for them.

Phase 1

Asset Development

Everything we build is based on your ICP and Offer. Not generic templates.

CRO Landing Page

Conversion-optimized page built around your ICP's pain points with clear CTAs

Video Sales Letter

A video on your landing page that explains your offer and builds trust

Ad Creatives & Scripts

Static images and video scripts designed to stop the scroll and attract your ICP

Retargeting Assets

Follow-up creatives for visitors who did not convert yet

Company Profile

Redesigned to match your ICP persona and position your brand

Case Studies

Social proof documents showing results for similar businesses

Timeline: 10-15 days to complete all assets. Phase 1 wraps up by Day 15.

Phase 1

"But I Already Have a Website / Creatives"

WHAT MOST BUSINESSES HAVE

- Generic website for broad market
- Creatives that do not speak to a specific buyer
- Landing pages with no ICP focus
- No conversion rate optimization
- Scattered messaging across channels

WHAT WE BUILD FOR YOU

- ✓ ICP-focused landing page
- ✓ Creatives that trigger your buyer's emotions
- ✓ CRO-optimized for maximum conversions
- ✓ CAPI tracking for 90-95% accuracy
- ✓ Unified messaging across all channels

Your existing assets are not aligned with a narrow ICP. That is why they do not convert at scale.

PHASE 2: EXECUTION

What is Marketing?

We have built all the assets in Phase 1. Now we need to get them in front of your Ideal Customer.

The process of delivering your offer to your ICP through digital channels is what we call Digital Marketing.

WHY WE ARE DIFFERENT

Most agencies jump straight to running ads without preparation. No ICP. No tailored offer. No CRO. Just generic creatives.

We spend 15 days preparing because preparation is what makes the difference between burning ad budget and generating real SQLs.

Two Types of Digital Marketing Channels

Organic

Free channels that build trust over time

Paid

Ad-driven channels for immediate reach

Phase 2

Organic Channels

LinkedIn Sales Navigator

The #1 B2B resource. We find your ICP's contacts and reach them directly.

Email Marketing

Personalized email sequences sent to ICP contacts from the databases.

LinkedIn Outreach

50-200 connection requests per week with your offer in the connection note.

SEO

Long-term organic visibility so your ICP finds you when searching online.

Apollo & Crunchbase

Databases where we pull verified contact data for targeted outreach.

WhatsApp Marketing

Direct messaging campaigns in regions where WhatsApp is the primary channel.

Content Marketing

Consistent posting of ICP-focused creatives and videos to build trust.

Referrals

Leveraging existing client relationships for warm introductions.

Phase 2

Paid Channels

Depending on where your ICP lives online, we choose the right ad platforms.

Meta Ads

Facebook & Instagram

Best for high-volume lead generation. We use the ICP-focused creatives and VSLs we built in Phase 1 to drive traffic to your CRO landing page.

LinkedIn Ads

B2B Precision Targeting

Ideal for reaching specific job titles, industries, and company sizes. Higher CPL but significantly higher quality leads for B2B services.

Google Ads

Search & Display

Captures intent-based demand. When your ICP is actively searching for your solution, Google puts you right in front of them.

Bigger goal = Bigger budget = More channels active at the same time

The Customer Journey

From the first impression to a closed deal, this is the journey every lead takes.

1

Impressions

CPM

Your ad is seen
by your ICP

2

Landing Page

Traffic

They click and
visit your page

3

Form Fill

Raw Leads

They submit
their details

4

CRM + Setter

Follow-up

Automated nurture
sequence

5

Meeting

SQL

Qualified prospect
books a call

OUTCOME: Sales Qualified Leads on your calendar, ready for you to close.

Our Secret Weapon

TRACKING: PIXEL vs CAPI

Facebook Pixel

35-40%

tracking accuracy

Conversion API (CAPI)

90-95%

tracking accuracy

CAPI runs on AWS servers, not browser cookies. It sends data directly to Meta, so the algorithm learns exactly who your real buyers are and sends more of them to your page. Only 4-5 agencies in Pakistan use this.

CRM & AUTOMATION (GoHighLevel)

Raw leads flow into CRM → Automated follow-up sequences trigger → Appointment setter qualifies → SQLs land on your calendar

KPIs We Track For You

Key Performance Indicators are the numbers that tell us if we are winning. Here is what we monitor:

KPI	What It Means	Why It Matters
Impressions (CPM)	How many people from your ICP saw your ad	Shows if our targeting is reaching the right audience
Traffic (Landing Page Views)	How many clicked through to your landing page	Measures ad quality and CTA effectiveness
Raw Leads (Form Fills)	How many submitted their contact info	Shows landing page conversion strength
SQLs (Meetings Booked)	Qualified leads who booked a meeting with you	This is the KRA: Key Result Area you judge us on
ROI (Return on Investment)	Revenue generated vs total marketing spend	The ultimate measure of whether this is working

You do not need to track all of this. Just look at SQLs. That is your KRA.

Expected Timeline After Going Live

Here is what happens day by day once campaigns go live on Day 16:

Day 16	Campaigns Go Live	Ads start running on selected channels
Day 17	Impressions Start	Your ICP begins seeing your ads
Day 18	Traffic Arrives	Clicks start coming to your landing page
Day 19	Form Fills Begin	First raw leads submit their details
Day 20	CRM Nurture Starts	Automated follow-ups engage the leads
Day 21+	First SQLs	Qualified meetings land on your calendar

We guarantee your first SQLs within the first 21 days of campaign launch.

Your Marketing Department

We do not just run ads. We become your entire marketing department.

OUR RESPONSIBILITY

- ✓ ICP Research & Validation
- ✓ Offer Strategy & Positioning
- ✓ All Creative & Asset Production
- ✓ Landing Page & VSL Development
- ✓ Campaign Setup & Optimization
- ✓ CRM Setup & Automation
- ✓ Lead Nurturing & Follow-up
- ✓ Appointment Setting
- ✓ Weekly Reporting & Optimization

YOUR RESPONSIBILITY

- Close the deals we bring to you
- Attend the booked meetings
- Provide industry knowledge when needed
- Trust the 90-day process

"We handle the entire pipeline. You focus on your service and closing deals."

Common Questions

"Can you show me results from previous clients?"

Absolutely. We have a portfolio with case studies and results from clients across multiple industries. We will share it with you so you can see exactly what we have delivered.

"Have you worked in MY specific industry before?"

If yes, we show relevant case studies. If not: We hire a dedicated project manager with expertise in your industry. Our R&D team has already built your strategy based on deep research into your niche.

"I just need lead generation. I have everything else."

We hear this a lot. But your existing assets were built for a broad market, not a specific ICP. Check your landing page right now. Is it targeting one specific buyer? If not, it will not convert at the rates we need.

What You Get After 90 Days

These 90 days give you a system you do not have today. That is what you are buying.

- ✓ A validated ICP that you can use forever
- ✓ CRO-optimized landing pages you own
- ✓ A CRM system with automated follow-up sequences
- ✓ Clear KPIs and dashboards to track ROI
- ✓ A proven offer that resonates with your target buyer
- ✓ Complete creative library (ads, videos, scripts)
- ✓ A lead generation machine running 24/7
- ✓ Portfolio and case studies built from real results

After 90 Days, You Choose:

Option A: Continue with us to scale further

Option B: Run the system yourself
